    - TBA
- Imagine all the people
    - another sunny day another rainy day
- Why do all good things come to an end
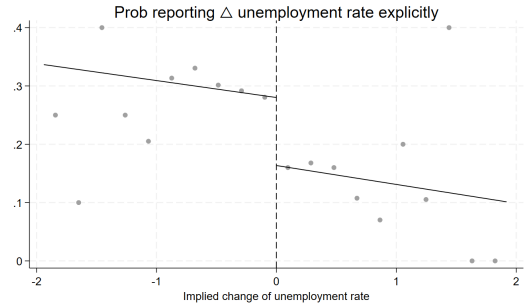

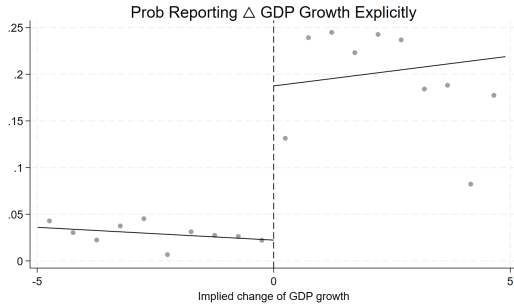

Sample Page 1

The China City Statistical Yearbook

- ▶ An annual publication by the National Bureau of Statistics
- ▶ Provides socio-economic data for all prefectures (cities)
- ▶ Data are drawn from local governments branches and statistical agencies
- ▶ Widely used in empirical research on urbanization, public finance, development

The China County Statistical Yearbook

- ▶ Covers county-level administrative units
- ▶ Focus on agricultural output, rural infrastructure, and village-level services

Sample page 2

Prob Reporting △ GDP Growth Explicitly

Prob reporting △ unemployment rate explicitly

- ▶ TBA
- ▶ TBA

SECTION X

Sample Page 3

- Construct a novel panel data based on statistical bulletins (*Gongbao*) and yearbooks
- Manipulation of figures around cutoffs vs. Selective reporting
- For statistics in yearbooks, bunching at the threshold of year-on-year improvement
- City governments are less likely to report a year-on-year deterioration of an indicator
  - decreases in favorable indicators (e.g. GDP growth)
  - increases in adverse indicators (e.g. workplace accidents)
- (Link to appendix page) Evaluation Scorecard
